

## ***Technical Information***

# **RCA TILE SEALER**

***“A high performance strippable Terrazzo flooring and Vinyl Tile Sealer with excellent durability and good gloss retention.”***

## COMPOSITION

RCA TILE SEALER is a fully formulated floor finish concentrate based on a metal crosslinked copolymer.

## FIELD OF APPLICATION

**RCA TILE SEAL** can be used in the following areas:

**UNDERCOAT SEAL** - for vinyl tile floors prior to coating with strippable floor polish. Best results are obtained by diluting the product to 20% solids prior to application.

**CONCRETE SEAL** – on new or aged concrete to prevent dust and oil penetration.

**TERRAZZO SEAL** – apply first coat at 10% solids to key into the Terrazzo followed by two top coats at 20% solids.

**VINYL TOPDRESSING** – The outstanding gloss and resistance to water and detergents make RCA Tile Sealer an ideal coat for vinyl products.

## PROPERTIES

- Appearance : Thin white emulsion.
- Specific gravity : 1.04 g/cm<sup>3</sup> @ 25°C.
- pH neat Solution : 8.5 – 9.5
- Viscosity : 20 cps
- Solids : 30%

## BENEFITS

- Durable.
- Resistant to detergents
- Strippable.
- Amine resistant.

## STORAGE CONDITIONS

Ensure that drums are kept sealed when the product is not in use. Protect from exposure to frost. Product has a shelf life of at least 12 months if handled and stored correctly.

## **SAFE HANDLING PRACTICES**

When working with chemicals, protective clothing should be worn at all times. This equipment should include impervious gloves, goggles and protective clothing. For detailed health and safety information, refer to the relevant MSDS Bulletin.

## **ATTENTION**

The data contained in this technical bulletin is based on extensive laboratory studies and field applications through bulk trials. Since there are many factors that may influence processing and application, the information herein does not exempt the user from performing their own tests and experiments to determine the suitability of the product for their own application.

The information contained does not provide any liability or legally binding guarantee regarding the suitability and properties of the product for a specific end use. It is the obligation of the user to ensure those proprietary rights; laws and legislation are observed.
